

Safety Instructions & Terms & Conditions Of Hire

Cancellation Policy

Cancellation of booking is automatic loss of deposit. Where hireage has been paid in full beforehand, cancellation on day before / day of hireage incurs €50.00 charge (Refund will be less €50.00). Non use of inflatable due to bad weather does not mean refund/deduction. Where a unit has been delivered, set up and accepted by the client, full remuneration of the hireage rate or balance due must be paid on delivery.

Facilitation

A front, side or rear external entrance to the premises must be provided to enable the unit to be installed. Please remove any dust and recycling bins or any other items that may conflict with access and egress to the proposed setup area. Ensure that the proposed setup area is level and clear of all obstacles. Remove any washing lines, children's toys, picnic tables etc and any other items that may inhibit the unit's safe erection. **THE PROPOSED SETUP AREA MUST BE COMPLETELY FREE OF ALL ANIMAL WASTE.** Jumparound Ltd reserves the right to refuse unit installation to an animal fouled area. If access / egress to the setup area is proposed to be via the inside of the premises, the hirer accepts full responsibility for any damage howsoever caused to the furnishings, fittings and fabric of the premises. The hirer is advised that water / debris can deposit from the unit especially after a period of bad weather. Jumparound Ltd **WILL NOT** be held liable for any damage or subsequent damage caused. Public Areas: If the hirer proposes to install the unit on a public area such as an estate green or communal area, they must seek written permission of the local authority or responsible agency. A copy of that permission must be furnished to Jumparound Ltd prior to the hireage. On arrival at the customer's premises, Jumparound Ltd reserves the right to refuse unit hireage and seek full payment at the current daily rate if the customer cannot produce satisfactory evidence of such permission.

Safety Instructions

Inflatables

It is the responsibility of the hirer to ensure that all possible steps are taken to avoid injury or damage to the inflatable. Please ensure that the following safety instructions are followed:

The age limit for a children's inflatable is 12 years. For persons over that age, an adult inflatable is required. No food drinks or chewing gum are to be consumed on the inflatable (to avoid choking & mess). A cleaning charge of €50.00 will be charged if the inflatable is collected in a dirty condition. All shoes, badges, jewellery, (i.e. large earrings, necklaces etc.) **MUST** be removed. It is recommended that spectacles are also removed. No face-paints, party-poppers, coloured streamers or "silly string" must be used near or on the inflatable, as they can make a terrible mess and permanently stain the unit. No smoking near the inflatable. Climbing, hanging, or sitting on the walls is **DANGEROUS** and must not be allowed. A responsible adult must supervise the inflatable at all times. **DO NOT ALLOW CHILDREN TO OPERATE THE UNIT ON THEIR OWN.** Ensure that the inflatable is not overcrowded, and limit the numbers depending on age and size of persons using it. If persons are colliding into each other then it is over-crowded. Under no circumstances should the maximum number of users be exceeded. This number is detailed on the specification chart on the front of the unit. Try to avoid large children and small persons from using the inflatable at the same time. Some children require strict supervision. Pets, toys, shoes or sharp instruments are not allowed on the inflatable at any time. If the inflatable is not being used for any part of the day, please switch the blower off at the mains, this will reduce your electric bill. Do not allow anyone to bounce on the step/front apron. The step is there to help users get on and off. Persons are not to push, collide, fight or behave in a manner likely to injure or cause distress to others. Ensure that no-one with a history of back or neck problems are allowed on the inflatable. Do not allow users to be on the unit during inflation or deflation. In the event of heavy rain, it is strongly recommended that the inflatable be switched off. Any wetness, including bubbling can be dried with a towel. A small picnic table placed over the blower, will help prevent rain-water being sucked into the blower, and then into the inflatable. Do **NOT** move this unit from where it has been set up. Do not use the unit near any swimming pools. Ensure that the vent on the side of the blower is kept clear at all times. Ensure that an area of 6 feet (2 metres) around the unit is completely clear. In winds of 20 miles per hour or greater please remove users and switch off power to the inflatable. If you are unsure about anything, please contact us.

Bubble Machines

The unit is supplied with a quantity of pre mixed bubble fluid for your convenience. Using the container supplied, fill the discharge tray at the front of the unit to the "FULL" level mark. You will have to top up the fluid at regular intervals. Do Not Fill Above The Full Line Position. The unit is ready for operation. There are two power switches on the rear of the machine – one marked power, one marked remote. Under NO circumstances may both switches be in the ON position at the same time – the switch marked "Power" is for continuous use only – i.e. the bubble machine is permanently producing bubbles. The switch marked "Remote" is used when the unit is being controlled via the remote time delay controller (separate controller supplied – i.e. the bubble machine trips in and out producing bubbles after a time interval). Only one power switch on the unit is to be used at any one time. If using the time delay controller, set the interval and duration knobs to the required settings. The duration setting determines the elapse time of operation. This can be set for 3 seconds to a range of 30 seconds. The interval setting determines the time delay between automatic operations. It can be set for up to 5 minutes. From time to time bubbles can build up around the front mouth of the unit and inhibit the bubble flow. Simply push these off to one side and this will re-establish the correct bubble flow.

Air Dancers

In winds of 10 miles per hour or more, switch off the unit (it will be ineffective anyway because the character will not stay erect in winds above 5 miles per hour). No standing over, climbing, or sitting on the unit under any circumstances as this may cause the inflatable character to collapse and subsequently be sucked into the motor from below. In the event that the character is sucked into the fan motor, **switch it off immediately to avoid the motor being burned out. Call Jumparound Ltd immediately.** When switching the unit off, have another adult **support the fabric character while it deflates.** This will only take a second or so.

Sumo Suits / Kangaroo Boxing

No more than two people may operate the suits at any one time. These units may be used by either adults or children. The appropriate size suit must be selected. Do not allow children to use adult suits or vice versa. The units are supplied with headgear and neck braces which **MUST** be worn at all times whilst using the units. The kangaroo boxing gloves must be worn at all times. Climbing, hanging, or sitting on the walls of the wrestling ring is **DANGEROUS** and must not be allowed. Do not allow anyone to bounce on the wrestling ring walls or archway. Try to avoid larger persons and smaller persons from using the units at the same time – keep them balanced – this will make the competition equal.

Gladiator

This unit may be used by either adults or children, but no more than two occupants at any one time. The adult Pugil sticks may only be used by adults. The smaller Pugil sticks may be used by adults or children. The unit is supplied with headgear which **MUST** be worn at all times whilst using the gladiator. The inflatable bed is **NOT** an inflatable bouncer.

Disclaimer

The hirer or hirer's agent (Name overleaf) hereby agrees that all of the above items marked on the delivery schedule have been delivered to my premises in good working order. I understand that it is my responsibility to use the unit in accordance with the operating instructions provided to me. I further understand that I shall be liable for any damage caused to the unit or its' appendages including all fan blowers, cables etc as per the delivery schedule. I agree to financially discharge the cost of repair or replacement of any of the items detailed in the delivery schedule above, should they become damaged or missing while under this hireage. My attention has been drawn to the terms and conditions of hire and I agree to be bound by same. This copy of the terms and conditions of hire has been provided to me for reference. Please note that all persons using this equipment do so at their own risk. The person/organization hiring the equipment will be responsible / liable for any damage or injury occurring from or as a result of misuse or reckless use. These guidelines are for the safety of all people using this equipment, and it is the sole responsibility of the hirer to ensure they are adhered to. Jumparound Ltd cannot accept any responsibility for any injury caused to anyone using this equipment. The hirer shall be deemed to have inspected the equipment (accessories and trailer(s) if supplied) and to have agreed that it is supplied in good condition unless he/she brings to the attention of Jumparound Ltd when it is set up and checked by the hirer when coming in to possession of the equipment any faults noted by the hirer. Public Liability insurance is excluded in its entirety following any claim or injury to any third party or employee whether directly or indirectly related to the use of drugs and/or alcohol. Jumparound Ltd excludes any liability for injury loss or damage caused to any person using the equipment contrary to the terms and conditions of this contract.

Important Notice

Provided that the equipment is used in accordance with the above guidelines and conditions of hire, those using the inflatable should do so safely. However, accidents can happen. Jumparound Ltd can accept no liability for injuries sustained whilst the equipment is in the hirers' possession or any other loss, howsoever caused, in the absence of the negligence of Jumparound Ltd or its employees. As the equipment will be in the hirers' possession and control whilst in use rather than Jumparound Ltd, any liability for injuries or other losses caused other than in the circumstances described above rests with the hirer. Accordingly, it is strongly recommended that the hirer has adequate public liability insurance covering his or her liability arising from the use of the unit. **N.B. When the unit is delivered to your premises and subsequently erected for use, a signature is required from the hirer or hirer's agent. This signature is a commitment to the acceptance of the injuries disclaimer and terms and conditions of hire as detailed. It is also an agreement of acceptance responsibility for the unit(s) and its' appendages for damage or theft. Refusal to provide a signature will result in voiding of the contract, cancellation of the hireage or sale and removal of the unit from the hirer's premises.** We thank you for taking the time to read and understand these conditions. If you have any queries in relation to the above, please do not hesitate to contact us. Your safety is our priority. We hope that you have fun on your special day and we thank you for your business.

I **DECLARE** that I have read and understand these terms and conditions of hire and I hereby agree to abide by same. I sign the contract (overleaf) fully aware of the implications and responsibilities placed upon me by doing so.
